Yes No

3. Will you support dedicated, paid training each year for education support professionals to get the training they need that is specific to their work and students' needs?

Taxes/revenue

4. Would you commit to raising revenue to ensure the wealthiest corporations and richest households pay what they truly owe in taxes so every student, no matter what they look like or where they live, can attend a fully funded public school that prepares them to pursue their dreams?

Yes No

5. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. Considering your own experience and expertise, are there other progressive, equitable ways to raise state revenue that you would recommend the union consider supporting?

Taxes on newspapers, magazines and books should all be dedicated to school literacy

Without necessarily raising revenue, use state HHS funding for school mental health professionals, nurses and counselors rather than the current use of K12 funds

Work with members of Congress to fully fund the federal requirement for special education funding

We must look at the whole child and not just standardized test scores in making decisions.

Honesty in Education

15. What can you do to protect teachers in the classroom and ensure that they have the freedom to teach?

Discipline in the classroom must be enforced by admin staff and have parental buy-in

16. Do you agree that Minnesotan students deserve an honest and accurate education about race that enables them to learn from the mistakes of our past so they can create a better future for all Minnesotans? Why or why not?

Yes. Students should be made aware of the diverse cultural, ethnic, racial and religious background of all those who settled in the US, are arriving as well as the First Nation history and how such a diverse population differs from other countries where the residents are essentially all-alike.

Time to Teach

Yes No

18. Will you support legislation that protects an educator’s prep time so it can’t be used for meetings or having to sub for colleagues?

As a former MSCF union member, husband of a MSCF member and former school board member, I will continue to support our teachers and their unions

Yes No

25. Will you support continuing defined-benefits retirement systems for public employees?

Yes No

26. Will you support providing the necessary state funding to ensure financial sustainability of public pension funds?

Yes No

31. Will you support a moratorium on new charter schools until such changes are made?

Yes No

32. Minnesota students, from different places and of different races, deserve well-resourced, welcoming schools. These needs are urgent and can't wait decades for lawyers and courts to force it to happen.

Do you oppose efforts that would delete constitutional mandates for using taxation to fund public education funding and for providing equal access to public schools to all students?

Yes No

Do you also oppose these same efforts that would enshrine standardized testing – with all its racial, cultural and economic biases – into the Minnesota Constitution?

Yes No

Your role as a legislator

33. Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?

Last school I visited was Spring Lake Park HS; however, over the years I have visited every school in District 11 and Spring Lake Park. I sense from my visits the level of learning that seems to be happening, how dedicated the teachers and staff are and how students are responding. Visiting schools is essential for everyone in elective office

34. What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?

I check with school board members, Ed MN lobbyists and the union staff when I have questions

35. How do you envision working with Education Minnesota if you are elected/re-elected? If you disagree with us on an issue, how will you communicate that?

I have had a long-standing good relationship with Ed MN and will continue to rely on them for information

36. If elected/re-elected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?

It depends on the issue at hand. Generally speaking, I rely primarily on Ed MN, but I also am in contact with lobbyists for higher education, charter schools and school staff at the Perpich Center and other specialty schools. My priority has been supporting Ed MN when there are differences of opinion.
