retirement options?	5. How will you support efforts to lower inequitable penalties in the Teachers Retirement Association in order to expand retirement options?

Although I was never involved in the decision, Legislators created a two tier retirement system for our state's public teachers. This has led to several quite disappointing inequities in the plan. Several local teachers have shared this with me. Some call it a joke,

2024 Candidate endorsement questionnaire : Entry # 1507
others say that the retirement plan is not worth staying for, while others think it is impacting recruitment and retention.
I support a system that is equitable and would be happy to be part of a larger effort to make serious reforms in the coming sessions.
Health care
6. Do you support educators having access to a mandatory statewide health insurance pool, just like other state workers?
Yes
7. Do you support the current language that allows educator locals to unilaterally seek a bid and join the Public Employee Insurance Program (PEIP) as the insurance provider for local bargaining units?
No
8. All Minnesotans deserve access to affordable health care and publicly managed plans like MN Care and Medicare are some of the most efficient plans out there. The legislature is currently seeking a federal waiver to expand MN Care to more residents. Do you support expanding all public health care programs to include more working people?
Yes
Education funding
9a. Reverse Minnesota's perpetual underfunding of education by significantly increasing the per-pupil funding formula.
Yes
9b. SPED cross subsidy: The state must fully fund special education costs instead of relying on school districts to pay for them.
Yes
9c. EL cross subsidy: Fully fund the costs districts pay to provide quality English learner programs and instruction.
Yes
9d. Lower class sizes: Lower class sizes so teachers can give students more of the individual attention they need and deserve.
Yes
9e. Full-service community schools: Expand access to full-service community schools across the state.
Yes
9f. Teachers of color: Fund programs to increase the number of teachers of color significantly so teachers providing instruction better reflect the students in our classrooms.
Yes
9g. Student support: Continue providing additional resources for school districts to hire more student support staff, including counselors, social workers, psychologists, nurses and other job classifications.
Yes

2024 Candidate endorsement questionnaire : Entry # 1507
9h. TDE/Q Comp: Fully fund the 2011 Teacher Development and Evaluation law, an unfunded state mandate, to ensure teacher quality and lift the cap on the Q Comp program.
Yes
9i. Professional development: Provide professional development to all staff around cultural competency and trauma- responsive classrooms with aims of closing the discipline disparity gap.
Yes
9j. Education debt relief: Provide debt relief to retain teachers so they can afford to stay in the classroom.
Yes
Taxes/revenue
10. Would you commit to raising revenue to ensure the wealthiest corporations and richest households pay what they truly owe in taxes so every student, no matter what they look like or where they live, can attend a fully funded public school that prepares them to pursue their dreams?
Yes
11. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. Considering your own experience and expertise, are there other progressive, equitable ways to raise state revenue that you would recommend the union consider supporting?
Yes
12. Fully funded schools require adequate and stable revenues. Will you oppose tax cuts and carve outs that lower tax collections or narrow the tax base?
Yes
13. A balanced tax code draws revenue from a mix of income, sales, and property taxes. Will you support policies that maintain both adequate funding and a sustainable balance between revenue sources?
Yes
Higher education
14. Do you support increasing the state's direct investment in public higher education to significantly reduce institutions' reliance on tuition?
Yes
15. Will you support investments in capital bonding projects that preserve buildings, remodel classrooms and keep our technology assets current?
Yes
16. Do you support DEI efforts on our college campuses and universities?
Yes

2024 Candidate endorsement questionnaire : Entry # 1507

17. What would you do, as a state legislator, to help with the cost of higher education?

Tuition freeze, additional funding for the North Star Promise for private colleges in Minnesota in addition to public colleges and universities.

18. The North Star Promise is expected to result in an increase in enrollment on our campuses. Many of these students are projected to be disproportionately first-generation students and students from historically underserved communities. As a legislator, what would you do to ensure these students had the support they needed to be successful?

We will need to make additional funding decisions to provide the additional supports for those students.

19. There are efforts to expand the North Star Promise to Minnesota's private colleges and universities. This would dramatically increase the amount of public money going to private institutions. Do you support the expansion of the North Star Promise to include private colleges and universities?

Yes

High-quality professional educators

20. What will you do to help recruit and retain high-quality educators in our classrooms?

Make funding consistent and supportive of a school's different needs. Most schools operated in the red despite increased funding. As a Legislature, we are going to have to consider getting a teacher's license less restrictive. ED TPA is a lot of hoop jumping I'm told from local teachers. Lastly, we have to fix TRA or find a better plan that isn't so bad for teachers who started after a certain date. At minimum better flexibility in retirement date or if they leave the system entirely.

Standardized testing

21. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?

As someone that was part of the guinea pig generation of the MCAs, I can tell you that they have only gotten worse. What's more, teachers don't even get the test scores in a timely manner to actually be able to do anything about poor scores. I really don't think that more testing is the answer. I also don't think that every student is a good test taker - so standardized testing is flawed. What I really want to say here is this - in the era or MORE standardized testing, we are noticing that MORE students are falling behind grade level minimums. I really do hope that the READ Act can help get us to the point where more students are reading at or above grade level.

Honesty in Education

22. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?

We've got to get away from censorship in our school library systems. In the age of YouTube, a student can easily access the sort of content that certain parents and community members seek to limit or remove access to. I am proud to have voted for the ban on bans legislation this year.

23. Education Minnesota believes all students should have the freedom to feel safe and welcome in their public school, no matter what they look like, where they're from, how they pray, transgender or not. Do you agree?

Yes

2024 Candidate endorsement questionnaire: Entry #
1507

24. Students bring many needs into their public schools, but our union believes they all deserve the freedom to grow with the help of support for their mental health and with lessons in how to recognize and control their emotions, which is sometimes called social-emotional learning. Do you support increasing support for students' mental and emotional health in public schools?

Yes

Time to Teach

MoveDuplicate Settings Delete 25. The planning and differentiating that teachers do daily needs more time. Most after school "prep" is filled with meetings. The current statute falls short of the time needed for preparing lessons. Will you support adjusting this statute to increase prep time?

Yes

26. Will you support legislation that protects an educator's prep time so it can't be used for meetings or having to sub for colleagues?

Yes

27. Do you support paid, dedicated time outside of student contact time for special education teachers to complete their paperwork and attend required meetings?

Yes

School safety

28. Creating incentives for school administrators to enforce districts' codes of conduct without bias and/or creating accountability measures for those who don't?

Yes

29. Increase reporting and transparency in worksite safety when reporting physical injuries and emotional trauma in the workplace?

Yes

Union Rights

30. The ability of workers to come together in union and bargain collectively has been vital for reducing wage gaps by gender, building the middle class, and limiting wealth inequality in Minnesota. Do you support expanding and strengthening workers' rights to join a union and bargain collectively?

Yes

31. Will you oppose any legislation or constitutional amendments that would weaken collective bargaining rights, the right to organize, the right to strike, automatic payment of union dues, union access and activities at worksites or other anti-union policies backed by anti-worker groups?

Yes

32. How will you support unions as a state legislator?

I have always considered unions to be a democracy within a democracy. To that extent - the power is within the collective of teachers in their ability to know what will make their job easier or better able to preform. I will continue to see unions as partners in

2024 Candidate endorsement questionnaire : Entry # 1507

the Legislature and as such have always given priority consideration to their voice in Saint Paul.

Privatization

33. Do you oppose state tax credits for private K-12 education tuition and expenses?

Yes

34. Will you support policy changes that will ensure a stronger accountability system with necessary oversight and reporting to ensure quality management and instructional practices in charter schools?

Yes

35. Will you support a moratorium on new charter schools until such changes are made?

Yes

Your role as a legislator

Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?

Yes. Saint Peter Elementary School. I visited with the Principal, several teachers, the student council, participated in the student assembly, the lunchroom, and the room for students that were disruptive during the school day. Too many observations to list here, however they will definitely help guide me in the public education space in future years as they did during this session. I am always willing to visit with more schools.

What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?

I have several close friends that are teachers. They provide me the most candid opinions and background in the public education space locally. Additionally - Education Minnesota is an important resource at the Capitol.

How do you envision working with Education Minnesota if you are elected/reelected? If you disagree with us on an issue, how will you communicate that?

Just the same as I have always done. I have worked with Sarah Burt and others from EDMN and I would continue to do so. If I have a disagreement, I would share it and find a way to collaborate on a solution.

If elected/reelected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?

I would take these priorities one at a time, weighing the issues, finding additional context from the organizations, and working with my colleagues to find common ground. I realize that principals, admin, school board members, and teachers don't always see eye to eye. Just like in life, we need each other to make the success of our students a reality.
