**11. Education Minnesota believes in restoring fairness to the state tax code by raising revenue from the very wealthiest corporations and richest households and reducing the reliance on local levies to fund schools. Considering your own experience and expertise, are there other progressive, equitable ways to raise state revenue that you would recommend the union consider supporting?**

**Standardized testing**

**21. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?**

Educators know best how to educate. Most decisions should be made at an individual, or system level, with the condition of communication, and transparency to ensure equality in treatment.

**Honesty in Education**

**22. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?**

We need to pass legislation to keep books in schools. Banning books only harms the education process and limit our children's growth potential.

**Your role as a legislator**

**Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?**

I have not visited a school in the last decade. I would love to meet with and learn more about the issues our educators are currently facing, and would appreciate any assistance in arranging meetings to do so.

**What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?**

Most of my information currently comes from friends and family who either have kids in school, or are educators themselves. I am currently looking into organizations and news source to increase my knowledge in this area.

**How do you envision working with Education Minnesota if you are elected/re-elected? If you disagree with us on an issue, how will you communicate that?**

I plan to listen to the unions and educators as the experts in their field. If we disagree on an issue, I would ask for a meeting to discuss how and why we came to our opinions, so I can better understand the issue.

**If elected/re-elected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?**

Listen to both groups and form decisions based off the merits of each groups stance, as well as opinions of other experts in fields related to whatever issues are being debated.
