Maintain the no book banning legislation and work with school boards to highlight the impact of a well rounded student able to navigate all areas of life for our communities and for our workforce.

**23. Education Minnesota believes all students should have the freedom to feel safe and welcome in their public school, no matter what they look like, where they're from, how they pray, transgender or not. Do you agree?**

**Your role as a legislator**

**Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?**

Visited Rice Creek Elementary School in May, 2024 as a volunteer at the school carnival. We had so many young families interacting with each other from various ethnic backgrounds. The participation, joy and community spirit was strong. High School students came in to play music and help with events, games, and line management for the young kids to see and interact with the older kids.

Staff were helping each other and participating together, vigilant for safety and security of all in attendance. Schools are heartbeats of community activity. They are more than an academic base, they are social work connections to resources, scout troupe centers, athletic bases, places for after school care, places to vote, hold community education classes, support community outreach and centers of community pride watching children grow and learn in secure environments. Solidifying schools are bases of community in our neighborhoods and strengthening bonds between people as they break down barriers of any differences between people.

**What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?**

I read MPR, the local newspaper, city magazine and the local school websites when issues arise that need further attention.

Four of my close friends are teachers and I go to them with questions about their classrooms, administration and concerns. We frequently get together for fried time and issues in the schools are always discussion points.

**How do you envision working with Education Minnesota if you are elected/re-elected? If you disagree with us on an issue, how will you communicate that?**

I hope there will be newsletters, call times and emails shared when legislation needs to be crafted or reviewed and defended in committees that we would work together for getting legislation passed. In the same manner when concerns arise, we will be talking to the union liaisons and working to get the best information and find fair, equitable and sincere methods to resolve any resolutions where disagreements may occur and find alternate solutions or methods to do no harm.

**If elected/re-elected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?**

The MN Constitution provides guidance on public education in the state. When in doubt, follow the constitution and existing legislative guidance and put people, students and staff first.
