I support children being able to have access to books that are age appropriate. I supported the bill that would ban book bans.

Your role as a legislator

Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?

Yes, I have visited Edgerton Elementary School and Weaver Elementary

What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?

I normally listen to the Rep Youakim, my local teachers, my campaign manager works in special ed in the Roseville School system.

How do you envision working with Education Minnesota if you are elected/re-elected? If you disagree with us on an issue, how will you communicate that?

Listening to teachers on education issues. If I have concerns, I would reach out to folks in Education Minnesota to get a better understanding of the issue.

If elected/re-elected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?

I think my concerns will be more about balancing the competing needs for funding with other parts of the State. I have been Chair of Human Services Policy and have had folks sharing stories about people who died because they could not get the PCA services they needed. We have a mental health system that is in terrible shape. When a child has a mental health crisis, they typically don't end up in the hospital. In many parts of our state they are sent to jail, even though they have not committed any crimes. That is the only place that will take them. The last cost estimate I had, to start addressing the mental health needs was \$750 million in new State money on an ongoing basis. I am open to increase funding for education, but not at the expense of the behavioral health system that is always being left behind.
