**2024 Candidate endorsement questionnaire : Entry #

**18. The North Star Promise is expected to result in an increase in enrollment on our campuses. Many of these students are projected to be disproportionately first-generation students and students from historically underserved communities. As a legislator, what would you do to ensure these students had the support they needed to be successful?**

We need to ensure that the pipeline to higher education through our K12 system is equitably resourced to ensure these first-generation students are set up on the front end in wrap around supports in the transition to higher ed. Additionally, these institutions must train staff on anti-bias/anti-racist trainings and provide wrap around supports upon orientation of these students.

**19. There are efforts to expand the North Star Promise to Minnesota's private colleges and universities. This would dramatically increase the amount of public money going to private institutions. Do you support the expansion of the North Star Promise to include private colleges and universities?**

### **Standardized testing**

**21. What individual or system-level decisions in education do you believe are appropriate to make based on standardized test scores?**

Teachers need to be supported in teaching, instead of over-emphasis on white normative metrics of assessments like the MCAs. We need to systems level support to have accountability that is rooted in ensuring that all students have the skills, knowledge, and attributes needed to thrive in the 21st Century.

### **Honesty in Education**

**22. Most educators believe students should have access to a wide range of age-appropriate books that include relatable characters and situations that reflect the diversity of Minnesota families. However, certain politicians and big money groups are trying to remove books from school libraries across America, particularly books with LGBTQ+ characters or those that deal with racism in America. How should Minnesota protect its students' freedom to read?**

The notion to ban books that deal with racism and LGTBTQ+ characters is absolutely ridiculous and bigoted. We must protect students' freedom to read and I plan to support policies protect these freedoms.

**23. Education Minnesota believes all students should have the freedom to feel safe and welcome in their public school, no matter what they look like, where they're from, how they pray, transgender or not. Do you agree?**

Yes

**24. Students bring many needs into their public schools, but our union believes they all deserve the freedom to grow with the help of support for their mental health and with lessons in how to recognize and control their emotions, which is sometimes called social-emotional learning. Yes

Unions are the backbone of a fairer economy that ensures people have a fighting chance for the dignified work environment and retirement against greedy corporations and historically dysfunctional institutions. **Your role as a legislator**

**Have you visited a public school in your district in the past year? If so, which one? What were your observations from your visit? How will that experience inform your work as a legislator? If not, when did you last visit a school? Would you like us to help arrange a visit?**

Visiting SPPS schools is one of the best parts about my job. It is a beautiful experience to see students learning through the expertise, love, and care of their teachers and support staff.

**What have you done to become informed on issues relating to public education? What organizations and individuals do you go to for your information?**

Education Minnesota and local union leaders are my first go to for information. I also trust and respect the insights that individual teachers and support staff share with me to help inform my positions.

**How do you envision working with Education Minnesota if you are elected/re-elected? If you disagree with us on an issue, how will you communicate that?**

As I've shared, Education Minnesota is my primary source of support and information on education issues. I am an open book. Honesty and transparency is core to who I am as a human being and how I show up as a legislator. If there are issues that I may not agree with initially, I will continue to be transparent and work directly with EDMN leaders on a solution.

For example, in my response to the moratorium question is nuanced in that I agree moratorium is necessary in Minneapolis and St Paul. However, I do not support a blanket policy as that would limit communities of color and Indigenous communities from creating educational opportunities in areas that have intentionally been oppressive in Greater MN or on reservations.

**If elected/re-elected, how will you balance competing priorities that might exist between Education Minnesota and other education groups?**

Similarly to above, Education Minnesota a voice I deeply value, I will communicate when I believe there are competing priorities and how I am hoping to work collaboratively to land on a final position.
